PROFESSIONAL SUMMARY

React Native & Full-Stack Developer with 3+ years of experience architecting and shipping multiple live production apps across the USA, Malaysia, Canada, and Pakistan. Skilled in building modern web interfaces with React.js and TypeScript, and robust backends using Python and FastAPI. Proficient in WebRTC video calling, Socket.io real-time chat, and Google Maps API with sub-second latency. Experienced in cross-platform mobile, web, and Electron desktop apps and AI-assisted development using LLM tools.

EXPERIENCE

Software Engineer

Jan 2026 - Present

Asper InfoTech - Hasilpur, Pakistan

- * Architected a full-stack e-commerce delivery platform with 3 distinct user modules using React.js, React Native, and Redux.
- * Built an ICMS supporting 50+ concurrent users via React.js dashboard, WebRTC video/audio calling, and Socket.io group chat.
- * Engineered FastAPI backend services with async endpoints and PostgreSQL, reducing API response times significantly.
- * Integrated AI/LLM tooling (Cursor, Copilot) to accelerate feature delivery while maintaining code quality.

React Native App Developer

Jun 2025 - Dec 2025

Signature Intech - Lahore, Pakistan

- * Launched KarayDaar and KarayDaar Agency - 2 real estate rental apps achieving a 5.0 rating on Play Store.
- * Integrated Firebase (Auth, FCM) and RESTful APIs enabling real-time communication across 1,000+ active listings.

Freelance React Native Developer

Feb 2025 - May 2025

Self-Employed - Remote

- * Shipped 3+ cross-platform mobile projects for international clients using React Native, TypeScript, and Firebase.
- * Integrated 20+ RESTful APIs and Redux state management across 5+ e-commerce and service-based client apps.

Mobile App Developer

Dec 2023 - Jan 2025

The Mind Gauge - Lahore, Pakistan

- * Shipped cross-platform apps with React Native & TypeScript backed by FastAPI, serving 10,000+ active users.
- * Implemented JWT/OAuth2 authentication and integrated Stripe, JazzCash, and EasyPaisha payment gateways.
